-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Feliz.

Feliz discloses a drive mechanism for mounting to the tongue of a trailer comprising: a jack J having a first end adapted for attachment to the tongue of a trailer and a second end adapted for having a wheel attached thereto, said wheel for making contact with the ground;

and means W for driving the wheel whereby the trailer is moved forward and backward, further comprising means 13 for lifting the wheel whereby the wheel is moved up and down;

further comprising means K for turning the wheel whereby the trailer is turned to the left and right;

further comprising means S101, S104, S105 for controlling the drive mechanism;

the drive mechanism being electrically powered and including means 100 for receiving and applying a potential to the drive mechanism;

the means for driving the wheel including a first electrical motor 84 having an output shaft thereon the shaft being adapted to drive the wheel through a gear mechanism 85;

further comprising a chain and sprocket mechanism having a first sprocket adapted for

attachment to the motor and a second sprocket 95 adapted for attachment to the wheel;

the means for lifting the wheel comprising a telescoping shaft having a first section 6 and a second section 44 wherein each of the first and second sections have an end corresponding to the first and second ends of the jack, and a second electrical motor 13 having an output shaft 18 thereon;

the means for turning said wheel comprising a third electrical motor 10 having an output shaft 11 thereon, the shaft being adapted to turn said wheel to the left and right through at least one gear mechanism.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 8-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Feliz in view of Fine or Williams.

Feliz discloses the claimed invention except the drive mechanism has a sprocket and chain assembly instead of a pulley and belt assembly. It is well known in the art, for example as taught by Fine (col. 2 lines 53-60) or Williams (col. 5 line 30) to use either a chain or a belt, the two being art recognized equivalents.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Feliz by using a belt instead of a chain, in view of Fine or Williams, the two being art recognized equivalents.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose motorized trailer transport devices.
